

HCM360 HRIS

User Guide

Step-by-step walkthroughs for everyday HCM360 tasks

Version 1.0.0 · April 2026

1. Getting Started

This guide walks you through the most common tasks in HCM360 HRIS. Screens are organized by the role that typically performs each task: Employee (self-service), Manager (team oversight), and HR Administrator (system-wide actions). Every task assumes you are already logged in.

1.1 Logging In

- 1 Open your browser and go to the URL provided by IT (for example <http://localhost:8093>)
- 2 On the login page, choose your name from the dropdown
- 3 Click Sign In
- 4 You will land on your dashboard (the home page differs by role)

1.2 Navigating the App

- The left sidebar lists every module you are allowed to access
- Hover over a group label (e.g., Self-Service, Workforce) to expand its sub-items
- Click your name in the top-right corner to open the user menu (switch user, log out)
- The top bar shows your current role and any urgent notifications

2. For Employees

2.1 Viewing Your Profile

- 1 Click Self-Service → My Profile (or go to </me/profile>)
- 2 Your details are organized in collapsible cards: Personal Information, Addresses, Emergency Contacts, Government IDs, Bank Accounts, Dependents
- 3 Click any card header to expand or collapse it
- 4 Counts in blue badges show how many records are in each section

Note: You always see your own personal details but salary and rate fields are hidden by design.

2.2 Adding Missing Information

- 1 If a section says "No records on file", click the + Add one link next to it
- 2 Fill out the form that appears
- 3 Click Save — you return to the list view and see your new record
- 4 You can add multiple addresses, emergency contacts, bank accounts, etc.

2.3 Filing a Leave Request

- 1 Click Self-Service → My Leaves
- 2 Click File Leave in the top right
- 3 Pick a leave type from the dropdown (Vacation, Sick, Solo Parent, etc.)
- 4 Choose the date range — the system calculates days automatically

- 5 Type a reason in the notes field
- 6 Attach a document if the leave type requires one (e.g., medical certificate for Sick Leave above 2 days)
- 7 Click Submit — your supervisor gets an inbox task
- 8 Track status on the same page: PENDING → APPROVED or REJECTED

2.4 Viewing Attendance (DTR)

- 1 Click Self-Service → My Attendance
- 2 You see the current month by default; use the date filter to change
- 3 Each row shows: Date, Time In, Time Out, Worked Hours, Status (Present / Late / Absent)
- 4 Totals appear at the top: present days, late days, absent days, total hours

2.5 Downloading Your Payslip

- 1 Click Self-Service → My Payslips
- 2 The list shows every posted payslip in reverse chronological order
- 3 Click View to open the payslip on screen
- 4 Click PDF to download the printable version

2.6 Requesting a Certificate

- 1 Click Self-Service → My Certificates
- 2 Click Request New in the top right
- 3 Pick a certificate type (Employment, COE + Compensation, Leave Balance)
- 4 Add purpose (where you will submit it)
- 5 Click Submit — HR processes the request
- 6 Once approved, the PDF appears on the same page with a Download link

2.7 Checking the Org Chart

- 1 Click Workforce → Org Chart
- 2 You see your position in the hierarchy — your supervisor(s) above, your team below
- 3 Ancestors are shown with a locked gray style (for context only)
- 4 Your own card is highlighted in blue — click to jump to your profile
- 5 Team member cards are clickable — opens their employee page (with privacy masking)

3. For Managers

3.1 Reviewing Team Attendance

- 1 Click Team → Team Attendance

- 2 Pick a date range
- 3 Rows: one per direct report; columns: present, late, absent, OT
- 4 Click any employee name to drill into their DTR

3.2 Approving a Leave Request

- 1 Open your Inbox (top-right bell icon, or /me/inbox)
- 2 Click a leave request task
- 3 Review: employee, dates, reason, current balance after approval
- 4 Click Approve or Reject
- 5 Optionally add a note — the employee sees it in their notification

3.3 Approving Overtime

- 1 Open your Inbox
- 2 Click an OT request
- 3 Confirm the hours and date — the system shows the expected pay impact
- 4 Click Approve or Reject

3.4 Running a One-on-One

- 1 Click Team → My Team → [employee name]
- 2 The profile opens with manager-level privacy (DOB masked, salary hidden)
- 3 Click the Performance tab to see their open KPIs, last review rating, and feedback history
- 4 Use the Log 1:1 button to record your conversation

4. For HR Administrators

4.1 Onboarding a New Employee

- 1 Click Core HR → Employees → New Employee
- 2 Fill in basics: employee number, full name, date of birth, gender, civil status
- 3 Pick department and position — the job grade auto-fills from the position
- 4 Set date hired and employment type (REGULAR, PROBATIONARY, CONTRACTUAL)
- 5 Click Save — the record is created
- 6 From the detail page, use the section cards to add addresses, government IDs, bank accounts, dependents
- 7 Go to Admin → Users to create a login for the employee

4.2 Regularizing an Employee

- 1 Open the employee detail page

- 2 Click Employment → Regularize
- 3 Set date_regularized (usually last day of probation)
- 4 Status flips from PROBATIONARY → ACTIVE
- 5 Leave balances recalculate to reflect regularization benefits

4.3 Processing a Resignation

- 1 Employee submits resignation via Self-Service → Resignation (or HR does this on their behalf)
- 2 HR receives a task in the inbox
- 3 Validate last day, clearance, final pay computation
- 4 Change status to RESIGNED on the effective date
- 5 Generate Certificate of Employment at DMS → Certificates
- 6 Generate final pay run in Payroll → Runs (Final Pay type)

4.4 Creating a Payroll Run

- 1 Click Payroll → Pay Periods → Select or create a period
- 2 Click New Pay Run
- 3 Pick run type (Regular, 13th Month, Final Pay, Bonus)
- 4 Click Compute — the run moves from DRAFT → COMPUTING → COMPUTED
- 5 Review the summary page: gross, deductions, net, variances
- 6 Click Approve to move to APPROVED, then Post to lock and make payslips visible

4.5 Adjusting a Posted Payroll

- 1 Navigate to the employee's pay record in the run
- 2 Click Add Adjustment
- 3 Pick type (add-on earning or extra deduction), amount, reason
- 4 The adjustment is appended to pay_adjustments (never modifies the original)
- 5 Employee sees the updated net pay on their payslip

5. Working with Documents

5.1 Uploading a 201 File Document

- 1 Open the employee detail page → Documents tab
- 2 Click Upload
- 3 Pick a category (Contract, Clearance, Medical, etc.)
- 4 Drag-drop the PDF or image
- 5 Add a description and expiration date (if applicable)

- 6 Click Save

5.2 Processing a Certificate Request

- 1 Go to DMS → Certificate Queue
- 2 Click a pending request
- 3 Review the employee's details and the purpose
- 4 Click Generate PDF — the template fills in automatically
- 5 Click Release to mark complete; the employee is notified

6. Tips & Shortcuts

- Press / from any page to focus the global search bar
- Click the HCM360 logo to return to your dashboard
- The Inbox icon flashes red when you have new approval tasks
- Expand/collapse section cards on the profile by clicking their headers
- Monospace numbers (employee no, account no, ID no) are selectable for copy-paste
