

HUMAN RESOURCE MANAGEMENT OFFICE

SYSTEM REQUIREMENT SPECIFICATION FUNCTIONS

1. The system must be a Civil Service Commission PRIME-HRM program, Level 2 compliant.

Four Core HR Systems:

- o Recruitment, Selection, and Placement (RSP)
- o Performance Management (PM)
- o Learning and Development (L&D)
- o Rewards and Recognition (R&R)

2. Report generating system that generally includes functional requirements (what it does) and non-functional requirements (how well it does it), such as hardware, software, and performance needs. Key aspects to define are the target audience, purpose, data sources, report formats, and security measures.

Functional Requirements

- o **Data sources:** Ability to connect to and pull data from various sources like databases or other systems.
- o **Report design:** Tools for creating and customizing reports, potentially including drag-and-drop interfaces or a report designer.
- o **Data analysis:** Capabilities for querying, analyzing, and summarizing data before presentation.
- o **Report generation:** Options for manual or automated report generation based on specific triggers or schedules.
- o **Output and distribution:** Ability to display reports on a screen, export them to formats like PDF or spreadsheets, print them, or send them via email.
- o **Security:** Mechanisms for user authentication and authorization to ensure data privacy and access control.

Non-Functional Requirements

- o **Performance:** Requirements for report generation speed, data processing capacity, and system responsiveness under load.
- o **Scalability:** The ability for the system to grow with increasing data volume or user numbers.

HUMAN RESOURCE MANAGEMENT OFFICE

- **Reliability:** Ensuring the system is stable, with proper error handling and data integrity checks, and audit trail.

3. Attendance Monitoring Process:

- On line application and approval of leave of absence, travel order, compensatory time off (CTO), request for training / office order, and locator slip with pre-approval, and process monitoring;
- Pre-approved leave of absence, travel order, CTO, request for training / office order, and locator slip automatically reflects to the concerned employee's daily time record (DTR) and invalidates overlapping schedule;
- Mobile/desktop time-tracking or integration with clock-in tools: capture hours, overtime, remote check-ins;
- On line checking, acknowledgement, and approval of DTRs;
- Strict implementation of the instructions, process and requirements of Civil Service Form No. 6, revised 2020;
- Strict implementation of the instructions, process and requirements with on line pre-approval and monitoring of travel order and locator slip;
- Monitoring of habitual tardiness and absent without official leave;
- Automatically informs employee if vacation leave is below five (five) days, if undertime / tardiness incurred has reached seven (7) times;
- Face recognition attendance system / automated record system;
- Shift schedule management: automated attendance / customized schedule system for security unit personnel, rescue team, medical team, and other positions with jobs on call, and;
- Attendance monitoring for flag raising and flag lowering activities through mobile application check in with picture.

4. Recruitment

- Automatic notification of a posted vacant position to the qualified next in rank;

HUMAN RESOURCE MANAGEMENT OFFICE

- System pre-assesses or filters applications submitted on line based on the minimum requirements of the Civil Service Commission qualification standard;
- Retention of applications submitted within five (5) years;
- Source candidates through internal or external methods, such as posting of vacant positions to three (3) conspicuous places and job portal websites;
- On line approval of job order, local school board, and barangay health worker / barangay nutritionist scholar contracts;

Onboarding / Offboarding

- Digital onboarding: new hire forms, checklists, policy acknowledgements, equipment provisioning, training assignments — all digital;
- Electronic signature support on documents, and;
- Off-boarding workflow: exit interview form, CS Form No. 7, s.2017 on line approval, work transition schedule, asset return check including the documents, remove system access, archive record.

5. Performance Management (PM)

- Goal-setting and progress tracking: employees, department heads, together with the Performance Management Team, set goals, update / view status, review the IPCR and OPCR periodically;
- Succession planning: identify critical roles, track internal candidates;

6. Learning and Development (L&D)

- Learning & Development Tracking: posting of available and offered trainings, seminars to the system, tracking employees with training needs;
- Training attendance record through a mobile application check in attendance with geo tag, hour (morning and afternoon attendance), and date, and;
- On line submission of Narrative Report Form before acknowledgement of training attendance.

HUMAN RESOURCE MANAGEMENT OFFICE

7. Rewards and Recognitions

Loyalty Service Award Tracking

- Automatic identification of employees reaching 10 years of continuous service
- Subsequent loyalty recognition every 5 years (15, 20, 25, 30, etc.)
- Automatic Notice / Memo Generation for loyalty award

Step Increment Monitoring

- Automatic tracking of employees eligible for Step Increment every 3 years
- Based on Date of Original Appointment
- System generates:
 - Step Increment Due Report
 - Step Increment Notice / Memo

Retirement Monitoring & Notice Generation

- Automatic Identification of Employees Approaching Retirement, with gender breakdown:
 - Early Retirement Eligibility: Age 60
 - Mandatory Retirement: Age 65
- System will:
 - Generate List of Employees Nearing Retirement (6 months / 1 year before)
 - Create Retirement Notice / Memorandum for:
 - HR
 - Employee concerned
 - Accounting / Budget / Payroll for clearance & retirement benefit processing
- Reporting includes Male and Female breakdown for:
 - Early Retirement Eligible Employees (Age 60+)
 - Mandatory Retirement Due Employees (Age 65+)

8. Payroll System

- Payroll automation: auto-calculate salaries, deductions based on roles/hours; generate pay slips digitally.
- Benefits administration portal: employees can view benefits; integrates with payroll.

HUMAN RESOURCE MANAGEMENT OFFICE

- Encoding of Employees' Existing Loans (GSIS, Pag-IBIG, Coop, Cash Advance, etc.)
- Recording of Loan Details (Loan Amount, Terms, Start Date, End Date)
- Recording of Monthly Payment and Outstanding Balance (manual input)
- Viewing of Employee Loan Profile per Personnel
- Generating Loan Summary List for Reference / Verification

9. Security Compliance and Data Governance

- Role-based permissions: HR, mis, employees have only appropriate access.
- Audit trails: track who edited what and when, document access logs.
- Data encryption (in transit & at rest) + backups/disaster recovery.
- Compliance modules: track local labor laws, tax regulations, data-privacy requirements for our country.
- Archival and retention policies: automated removal or archiving of old employee records/off-boarded employees.

10. Employee Records Management

- Central, searchable **employee profile** database with all personal, role, salary, contract-history, emergency contacts.
- Digital document storage: upload contracts, certifications, signed forms; version control; track expiry/renewal.
- Role / position management: define job titles, reporting lines; tie employees to roles so organizational chart is live.
- Full employee lifecycle management: recruitment → onboarding → active employment → transitions/promotions → off-boarding.
- Paperless records & document management: digital storage of contracts, policies, forms, reviews; e-signatures; version control; audit trail.
- Employee Masterfile (Personal & Employment Information)
- Personal Data Sheet (PDS) Storage

HUMAN RESOURCE MANAGEMENT OFFICE

- Service Records & Appointment History
- HR Demographics and Workforce Profile Reporting (with Male/Female Breakdown), including:

Category	Data to be Generated (All with Male/Female Breakdown)
Gender Profile	Total number of Male and Female personnel (overall and by department/office)
Age Profile	Age distribution by gender (e.g., Male 20–29, Female 20–29, etc.)
Status of Appointment	Number of Permanent, Casual, Contractual, JO/COS, by sex assigned at birth
Rank Classification	Number of Rank-and-File and Officer / Supervisory personnel, with Male/Female breakdown
Educational Attainment	Number of personnel with: • Graduate Studies Degree (Master's/Doctorate) by gender • College/Bachelor's Degree by gender • High School Level by gender • Elementary Level by gender
Eligibility Profile	Number of personnel with: • 1st Level Eligibility by gender • 2nd Level Eligibility by gender
Plantilla Summary	Number of Plantilla Positions filled vs. vacant, with gender distribution
Salary Grade Distribution	Number of personnel per Salary Grade level, with Male/Female count
Relevant Trainings / Seminars Attended	Training history per employee and summary counts, with gender participation breakout

11. Reporting, Analytics & Dashboards

- Real-time dashboards: e.g., headcount by department, turnover rate, absence rate, leave trends.
- Pre-built & custom reports: export to CSV/Excel.
- Predictive analytics (optional but forward-looking): e.g., identify retention risk, forecast workforce needs.

HUMAN RESOURCE MANAGEMENT OFFICE

12. Self-service and Mobile Access - ensure all functions accessible via mobile device

- Employee self-service portal/app: employees update their own details (address, bank), download pay slips, request leave, view policies.
- Dept heads self-service: approve leaves, view office dashboard, run team reports.
- Online Request System (for Certificates: COE, Service Record, Copy of SALN (PDF), Copy of Appointment (PDF), etc.)

13. Modern / Futuristic Add Ons

- Chatbot/self-help assistant: employees ask questions ("How many leave days do I have left?") and system responds.
- AI-driven insights: e.g., skill gap identification, suggested training, attrition risk scoring.
- Flexible work support: hybrid/remote tracking, geolocation or mobile clock-in, virtual check-ins.
- Digital org-chart & visualization: drag-and-drop org chart, see reporting lines, open positions, vacancies in real-time.

14. Integration and Ecosystem (migration of data)

- API / connectors to other systems: payroll, ERP/finance, SSO/identity, time-clock hardware.
- Data import/export: ease migration from older systems/spreadsheets; bulk updates.
